Why Reduce Your Carbon Footprint?
Carbon-related Terminology
Where Carbon Can Be Found
Presentation by Dr Adrian Morphett, Carbon Planet

It does not matter whether or not you are one of the top 1000 companies in Australia who will be affected by the Carbon Credit Trading Scheme or a smaller organisation, the compelling nature of this movement and the benefits it can bring to an organisation means we cannot stand idly by and do nothing.

How Green is my Supply Chain
Presentation by Mr Stephen Cann, MEAC Group

The subject of Green and within this the "Green Supply Chain", is one of the most widely discussed topics of all time.

Continued focus by Government and the continual achievement of positive results by companies who are applying Green Principles and developing Green Supply Chains means that this is a topic that will continue to be high on most people's agenda.

Registration by fax or email will be accepted as firm bookings.
